WEATHER PROBABILITIES.—For this section partly cloudy tonight. Thursday fair, warm; light westerly winds.

KINDERGARTEN.—The annual meeting of the Alexandria Kindergarten Association was held in the assembly rooms of the Peabody school building last night. By request of the president, Mrs. M. W. O'Brien, Mr. K. Kemper presided with his accustomed grace and in appropriate terms presented the several speakers. Rev. G. L. Hunt, D.D., Mrs. Kate W. Barrett and Rev. P. P. Phillips. The addresses were interesting, instructive and well calculated to stir up the people to renewed zeal in behalf of this most beneficent work. Piano solos by Mrs. O. F. Carter and singing by Miss Carrie Evans and Rev. C. E. Ball and George Evans added greatly to the enjoyment of the evening. The reports of the president, secretary and treasurer, giving in detail an account of the year's work, showed that much had been accomplished with very limited means. The secretary's report acknowledges with thanks timely aid from many of the citizens in getting the rooms in readiness for the opening last fall of the Kindergarten and speaks in terms of high commendation of Miss Florence J. Evans, the Kindergarten, whose interest and devotion to her work is shown in the great improvement of the children under her care in their training in neatness and order, and in the development of their constructive ability and thinking powers. "All were much pleased with the specimens of work, which had been arranged on a table in the rear of the hall by Miss Evans, the Kindergarten, and showed remarkable concentration and effort, being executed by little children ranging from 3 to 6 years of age. The following named persons were elected as the board of directors for the ensuing year: Mrs. Virginia E. O'Brien, Mrs. F. K. Knox, Mrs. John Leadbeater, Mrs. Kate U. Taylor, Mrs. E. U. Usher, Mrs. George Dwyer, Miss Fannie Burke, Miss Mary Carlin, Miss Julia Rathbone, Miss Bettie Polard and Miss E. C. McKnight, R. F. Tucker, James F. Muir and John Herndon. The platform was beautifully decorated with plants and other appropriate ornaments, evidencing woman's touch and taste. The delightful evening's entertainment concluded with an earnest appeal from the presiding officer to the people to help support this good work.

ANOTHER PLANT.—The Emerson Pump Company, of Baltimore, chartered by the Corporation Court of this city a few weeks ago, will soon be ready to begin operations in Alexandria. The company has taken the building at the southwest corner of Prince and the Strand, lately occupied by the Virginia Beef Extract Company, and have removed all the machinery and apparatus of the latter and are placing their own in its stead. The company will engage in the manufacture of steam pumps. In a talk with the superintendent this morning (who is to remove his family to this city) he expressed the same common-sense views often heard of late, but so seldom acted upon—that Alexandria offering, as it does, equal facilities with other places, should attract more attention from manufacturers, or those contemplating entering into them, for the introvertible reason that property on the river front and other places is so much cheaper here than in the larger cities, some of which are not as eligibly situated as Alexandria. The tide, which has so cruelly ebbed in late years, may be approaching the turning point, and the plant alluded to above, that about to be inaugurated in the Mount Vernon Cotton Factory and the few others which have recently sprung up may be but the drops which are to precede the more copious showers, and those of us who are laboring to increase the city's prosperity must take courage believing that the exertions are not in vain.

COUNTY NOTES.—In the County Court yesterday John Wilson was fined \$5 for not obeying a summons as a witness.

Patrick Sullivan and Thomas McCuen, indicted for felonious assault, were brought into court upon a capias and the cases were set for Monday next.

The sheriff reported that Daniel Cumbaugh, against whom two indictments were returned for violation of the liquor law, had left the state. The judge said he would allow the defendant thirty days in which to answer the indictments, and if this was not done he would direct the state attorney to obtain a requisition.

The cases of the four young men indicted for disturbing a religious meeting were set for trial on Saturday next at 1 o'clock. The church people now want the young men released.

The trial of the cases against Richardson and King for resisting an officer was continued until a day to be fixed next week.

At the courthouse yesterday evening the following were fined by magistrates for hauling refuse and garbage from the District of Columbia and dumping it on the public roads of the county: Claiborn Gordon, \$8; Joseph Plummer, \$5; Henry Rasky, \$5.

The board of health of Alexandria county and the board of supervisors have directed that the hauling of refuse and garbage from the District of Columbia be stopped.

CHARTER.—Judge Norton today granted a charter to the Cereal Sugar Company, which proposes to produce, manufacture and sell sugar. The capital stock is \$500,000 and Mr. Dwight Tredway, of St. Louis, is president. Mr. G. L. Boothe is named as the local attorney for the company in this city.

RUMORS.—It is rumored on the streets today that H. P. Hurley, agent in this city of the B. & O. R. Co., company, who recently mysteriously disappeared from his home here, will soon be heard of. There are also rumors that there is a woman in the case.

A marriage license was issued by the Clerk of the Court today to Alexander Dodd and Fannie Allen, both of this city.

stops the Cough and Works Off the Cold.

Laxative Broom-Quinine Tablets cure a cold in one day. No Cure, no Pay. Price 25 cents.

MOKE RAIN.—The weather today has been rainy and gloomy throughout, and the streets, especially those around the wharves and environs, have presented a desolate and bedraggled picture. But few apart from those compelled to be out cared to be on the streets. In some cases squads of the masculine gender backed up in doorways or under sheds and whiled away the dreary hours listening to monotonous rain pattering and gurgling gutters. From a newspaper point of view the day was a veritable waterbail. No one seemed to know anything or have any desire to, but hurrying individuals collided umbrellas and dodged each other in endeavoring to get off the streets as soon as possible. Cannon balls could have passed down the Market House enclosure without hitting any one. The police station seemed to have gone out of business, no cases being on the docket, no complaints having been made and the attendants ready to yawn as though out of a job. The Corporation Court room was in the same torpid state. In short no items were visible nor suspicions of any, while the vein of imagination or conception refused positively to run. But old Sol will eventually make his reappearance, when the scene having changed the wheels will once more revolve and something may happen by which the pencil will again be in evidence.

PERSONAL.—Mr. Jno. C. Willis left yesterday for a business trip to Alexandria. Mr. and Mrs. Clarence Howard, of Alexandria, will move to this city the first part of next week, where they will make their future home.—[Fredericksburg Star.]

A number of ladies and gentlemen of this city, left here this evening for Warrenton, to attend the wedding of Mr. Eppa Hunton and Miss Virginia Payne, daughter of Gen. W. H. Payne, which takes place there tonight and which will be the society event of the season in that town.

Mr. Charles Rowland and Miss Lizzie Baslin, both of this city, were quietly married at 8 o'clock Monday evening at the parsonage of the Methodist Episcopal Church South by Rev. E. V. Regester.

The condition of Mr. W. F. Creighton was thought not to be quite so favorable today.

FARMERS' CLUB NOTES.—The next meeting of the Woodlawn Farmers' Club will be held at Cameron, the residence of Mr. Jas. W. Roberts, on the 27th inst. at the usual time, about 3 p. m.

The Glasgow Exposition.

Glasgow, April 24.—While the Glasgow International Exhibition does not open until May 2, when the Duchess of Fife takes chief part in the formal inauguration ceremony, a number of newspaper men and specially invited guests were today shown over the grounds. While the exhibition cannot compare with that of Chicago and Paris, it is described by its promoters as the greatest exhibition ever given in Great Britain and is expected to attract 8,000,000 visitors. The last Glasgow exposition was held in 1883 and made a record of 8,000,000 admissions. Strangely enough there is no American section though other countries have made elaborate efforts to attract attention to their products. There are a number of American exhibits but all are confined to private enterprises and are scattered about in the industrial building.
